

AT&T workers are standing up for good jobs.

Will you stand with them?

Send a message to AT&T: **Stop trying to wreck good jobs in our community and across the country.**

AT&T made \$30 billion in profits last year and just received a \$20 billion tax cut. Instead of keeping good family-supporting jobs in our communities, the company announced thousands of layoffs, continues to send work to low-wage contractors, and sends jobs overseas to at least eight countries.

CEO Randall Stephenson promised that if Congress passed the corporate tax cut bill, AT&T would create 7,000 well-paying new jobs. It is time for AT&T to live up to Stephenson's promises.

Support 12,000 AT&T workers in the Midwest and nationwide joining together to stand up to corporate power for good jobs and fair union contracts.
